

|   | Answer   |
|---|--|
| 1 | Human and other living creatures.  |
| 2 | The rise in temperatures and ice melting.  |
| 3 | Wildfires cause destruction of forests, animal extinction and air pollution.   |
| 4 | People become refugees due to famine, and poverty.   |
| 5 | Noise pollution can typically be found near busy roads and airports, and in centres of large cities crowded with people. |
