

## Answer

Dear Headteacher,

I would like to express my concern regarding the environmental issues surrounding our school.

For instance, the noise caused by constant traffic congestion negatively impacts students' concentration in class. Additionally, air pollution from harmful gases emitted by vehicles exacerbates breathing problems among students, especially those with asthma. Furthermore, contaminated water due to waste disposal increases the risk of diseases, which in turn leads to higher student absence.

These issues require urgent solutions to safeguard students' health and ensure a conducive learning environment.

Thank you for your attention.

Sincerely,

[Your Name]
